

Global mobile marketplace for buying and selling real world goods for cryptocurrency.

The goal of our company is to empower consumers around the world to invest in crypto and to enjoy the purchasing power of their crypto investments by creating a Ubcoin mobile marketplace.

Exclusive partnership

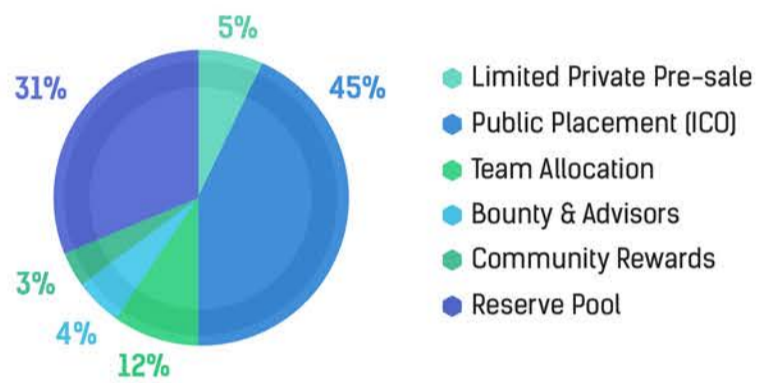

The Ubcoin Marketplace is not a greenfield project, but an extension of the Ubank mobile app.

- A matured company, existing since 2009.
- Our current product, Ubank, has over 16 million installations worldwide.
- 50+ developers, top management and advisor talent.
- Ubcoin will enhance and reinvent existing product value proposition.
- Samsung and Fly pre-install our current product on all smartphones, sold in CIS, including flagship Galaxy 9.

Token details

- Maximum supply (Hard Cap) 4,000,000,000 UBC.
- Only paid-for tokens are minted; no unsold tokens created. Non-public distributions will be pro-rated according to the share of tokens sold at the limited private presale and public placement combined. No dilution of public token purchasers will occur.
- Token buyback program, token burn programs are in place.
